

RENEWABLE THAME

Energy Solutions from Thame Green Living

SOLAR PANELS : BATTERIES : HEAT PUMPS

Action you can take on home energy and climate change issues

NEW from Thame Green Living **Renewable Thame** offers local residents and businesses solar PV energy arrays and battery solutions with the potential of extending this to heat pumps and other technologies where buildings are suitable.

The benefit to you is that your enquiry/quote via **Renewable Thame** will attract a special discount and TGL will also receive a £50 donation towards a community energy project in the future.

To arrange an appointment please contact Andrew.solarthame@gmail.com

Or read more about RENEWABLE THAME at <https://thamegreenliving.org.uk/renewablethame>

If you want to get started on measuring your carbon footprint and become a climate hero you can do that here <https://carbon-calculator.climatehero.me>

Meet the experts at our **Home & Community Energy EXPO** to find out more in a non-sales setting.
